Ledbury ICU Overview

Ledbury Intermediate Care Unit provides short stay nursing rehabilitation for up to 14 patients requiring step down care following surgery or medical intervention.

Step up care following an illness or incident at home which requires some stabilisation or therapy input prior to returning home. Both step up and step down care can only be accessed via referral from either a doctor or via a hospital.

The type of person who could benefit from Ledbury Intermediate Care Unit is someone who:

- is looking for the next step down from acute care.
- is looking for step up care following an illness or accident at home which requires stabilisation or therapy.
- wants to increase independence.
- wants to build confidence and self esteem.
