Shaw healthcare provides a high quality care and support service based on the exacting requirements of our customers, their family and friends. Our employees are trained to exceed industry standards as well as adhere to our own stringent Clinical Governance and Quality criteria.

We will make your transition into our care as smooth as possible by ensuring you maintain your independence. Each individual is offered their own key worker that will compile a bespoke care plan with you and your family. We place emphasis on person centred care; we listen to individuals' life stories and experiences and factor it into their care.

We are able to provide the very highest care standards to our Service Users twenty four hours a day, seven days a week. A GP visits regularly and we have excellent links with community healthcare.
